# What I Would Do

## Replace Entire Industry Structure

Current:

Industry-centric

---

New:

Client-centric

### **Startups**

MVPs, SaaS, AI Products, Growth Infrastructure

### **Small & Medium Businesses**

CRM, Automation, Internal Systems

### **Professional Services**

Client Management, Reporting, Operations

### **Education**

Student Portals, LMS, CRM, Admission Systems

### **Healthcare**

Patient Systems, Booking Platforms, Automation

### **E-Commerce**

Store Operations, Analytics, AI Support

---

This is believable.

Industries.

---

## Remove All Fake Metrics

Current:

60+ Tier 1 Clients  
120M+ Shoppers Reached  
12GW Assets Monitored  
40+ Brands Served

If not real:

Delete immediately.

---

Replace with:

### **Banking**

Secure systems, compliance workflows, customer-facing platforms.

### **Healthcare**

Patient engagement, scheduling, and operational automation.

### **Retail**

Commerce platforms, analytics, and customer experience.

No metrics needed.

Hero section: **Technology Built Around Your Industry**

We combine domain understanding with modern software, AI, and automation to solve industry-specific challenges.

## What I Would Build Instead

### Section 1

Industries.

Industries We Serve

---

## **Section 2**

### **Startups**

Build MVPs, SaaS products, AI systems.

---

### **SMEs**

CRM, ERP, automation, reporting.

---

### **Education**

Admissions, student management, LMS.

---

### **Healthcare**

Appointments, operations, patient engagement.

---

### **E-Commerce**

Operations, analytics, customer support.

---

### **Professional Services**

Project management, CRM, client operations.
