

Services page.

Technology That Moves Businesses Forward.

Subheading:

From custom software and AI systems to automation and digital transformation, AUMOXO delivers solutions designed for measurable business impact.

2. Growth & Strategy Section

Remove - Social Media Management

Replace (Business Consultancy) with :Technology Consulting

Description:

Technology strategy, process optimization, digital transformation planning, and solution architecture.

3. Remove 3D modelling.

CRM Solutions

Custom CRM systems built around your sales process, customer lifecycle, and operational workflows.

Features:

- Lead Management
- Pipeline Tracking
- Sales Automation
- Reporting & Analytics

This should be above Social Media.

Missing Enterprise Software

Services page.

You have:

- Web Apps
- SaaS
- Android

But not:

Enterprise Software Development

This is what enterprise clients buy.

Add:

Enterprise Software

Internal systems, operations platforms, dashboards, and business management software designed around your workflows.
