

About.

Current

Built for the enterprises shaping tomorrow.

Replace with : Helping businesses automate, grow, and innovate through technology.

Remove journey.

Remove global footprint : fake metrics

join the Team

Remove for now.

Reason:

You aren't actively hiring at scale.

It creates another question:

How many employees do you have?

Instead use that section for:

Let's Build Something Great Together

with:

- Get In Touch
- Schedule Consultation

What I would add

Instead of fake enterprise metrics:

Founder Story

About.

Something like:

AUMOXO was started with a simple belief: businesses shouldn't need massive budgets to access world-class technology. We combine AI, software engineering, and product thinking to help organizations move faster and operate smarter.

This is authentic.

Final structure I'd use

About

1. Hero
2. Mission
3. Founder / Company Story
4. Core Values
5. CTA ("Let's build together")
6. Footer
